

To Whom It May Concern:

I am writing this letter of interest in the appointment of Trustee with the AOCPMR for the upcoming term. I have been a practicing PM&R and Sports Medicine physician since 2019 and I have found it to be a very rewarding career thus far.

Over the years, I have had the opportunity to be involved with a myriad of leadership roles through my involvement with Sports Medicine services locally and nationally, lecturing and teaching nationally, with conference formation, and with medical education. As Head Team Physician at the high school and collegiate level, I am involved with education of our athletes for prevention of common illnesses and injuries as well as leading the medical team in formation of the Emergency Action Plan formation along with medical emergencies. Recently, I have had the opportunity to assist with the conference last year and be the chairperson for the upcoming conference for AOCPMR in the formulation of lectures, events. Finally, I have always enjoyed educating our future physicians. It is a joy to help be an integral part in leading learners of all levels from high school to fellowship level.

I also have a passion for medical advocacy. I had the opportunity recently to be the representative for my local MAC and one in the north/central United States for the continuing of Medicare coverage for cryoneurolysis and radiofrequency ablation as well as lead the charge in the AOCPMR position statement.

PM&R has taught me so many things and I would love to be a part of a growing group of providers with the AOCPMR to help shape our future as a group and as a specialty as a whole through advocacy, education, and growth.

Sincerely,

Clay C. Guynn, DO FAAPM&R/BC AOCPMR/CAQSM
